

Environmental Policy

T – Class Security Limited

T-Class Security Ltd is a supplier of uniformed security staff and security services. Protection of the environment in which we live and operate is part of T-Class values and principles and we consider it to be sound business practice. Care for the environment is one of our key responsibilities and an important part of the way in which we do business.

In this policy statement we aim to:

- Complying with all relevant environmental legislation, regulations and approved codes of practice;
- Protecting the environment by striving to prevent and minimise our contribution to pollution of land, air, and water;
- Seeking to keep wastage to a minimum and maximise the efficient use of materials and resources;
- Managing and disposing of all waste in a responsible manner;
- Providing training for our staff so that we all work in accordance with this policy and within an environmentally aware culture,
- Regularly communicating our environmental performance to our employees and other significant stakeholders;
- Developing our management processes to ensure that environmental factors are considered during planning and implementation;
- Monitoring and continuously improving our environmental performance.

To achieve
our aims we
will

1. Have paper recycling bins in use..
2. Equipment is to be turned off when it's not being used.
3. Communications by email are to be encouraged, and email messages are to be read onscreen to determine whether it's necessary to print them.
4. A fax-modem is to be used. Fax-modems allow documents to be sent directly from a computer, without requiring a printed hard copy.
5. Double-sided documents are to be produced where possible
6. Regular toilet inspections will take place in order to make sure taps are not left dripping.
7. Displacement toilet dams are installed in toilet reservoirs. In order to save a massive amount of water over the course of a year.
8. Training is to be provided in order for all staff to work in line with the environmental policy.
9. Investigation is to be an ongoing matter in order to search for "greener" products and services in the local community. E.g. choosing suppliers who will take back packaging for reuse.
10. Energy saving light bulbs will replace standard light bulbs.
11. Before deciding whether new office furniture is needed, existing office furniture must be assessed to see if it can be refurbished.
12. Apply strict internal quality controls for environmental issues.
13. Maintain our equipment to a high standard in order to meet environmental objectives
14. new technology to improve working practices for example fax modems/energy saving light bulbs.

14. Implement new technology to improve working practices for example fax modems/energy saving light bulbs.
15. Include issues involving the company and the environment in the Newsletter.

The policy statement will be regularly reviewed and update as necessary. The management team endorses these policy statements and is fully committed to their implementation.
